V-STROM 650XT LEARNER APPROVED

On Earth the road never ends. From tarmac to trail, every ride is an escape into freedom. The all-new go-anywhere V-Strom 650XT (Cross-Touring) is ready to expand your field in adventure touring. The Learner Approved variants 645cc V-Twin engine output is restricted to 35kW to meet the Learner Approved Motorcycle Scheme (LAMS) requirements and offers exceptional low-to-mid rpm performance.

The XT Cross-Touring variant comes fitted with wire spoked wheels, hand guards and engine under cowling as standard.

\$12,490 RIDE AWAY*

*Please note that ABS is a supplemental device for brake operation, not a device for shortening stopping distance. Always remember to reduce speed sufficiently before approaching curves and corners

KEY FEATURES

The famous 645cm3 V-Twin powerplant has undergone an update, installing new technology such as the resin-coated pistons, and revising over 60 engine components to achieve a higher output in a broad area of the rev-range, while keeping the unique V-Twin character with low fuel consumption. With low fuel consumption combined with the large 20L fuel tank, the riding range between fill-ups are at the top in this class, relieving the rider from the stress of frequent refuelling.

One of the upgraded features in the 645cm3 unit are the resin-coated pistons which is a coating technology to decrease friction in the cylinder, resulting in improved fuel economy and corresponding to latest emission control. Special L-shaped piston rings are also installed for enhanced sealing performance and blow-by gas reduction, all resulting in meeting up-to-date regulations while improving the output and the ease of use.

For the unique character of the V-Strom 650, the engine needs to be strong not only at the top end but at the frequently used low to mid-range. To meet these demands, a new high lift exhaust camshaft – that was developed for the new SV650 – has been installed, resulting in a boost in torque and power in the mid-to-high rev-range, providing the rider with an exciting ride when riding sportingly, and a stress-free character for daily rides or on a long haul, simply enhancing the attractions of the new model.

Featuring the performance-proven Suzuki Dual Throttle Valve (STDV) injection system, each cylinder has two butterfly valves for enhanced power output and efficiency. One butterfly valve is directly linked to the riders throttle control while the other butterfly valve is controlled by the ECM and operates according to information from the throttle position sensor, engine speed sensor and gear position sensor for optimum intake flow, realising an efficient and smooth power delivery with ample torque at low revs. Idle speed control is also a feature, supporting a steady idle speed and fewer emission. The injectors have been upgraded to a 10-hole type with a long nozzle for further efficiency.

KEY FEATURES

SPECIFICATIONS

ENGINE	90° V-TWIN, 4-STROKE, DOHC, LIQUID-COOLED
STARTER	ELECTRIC
TRANSMISSION	6-SPEED CONSTANT MESH
FRONT SUSPENSION	43MM TELESCOPIC FORKS WITH 150MM STROKE
REAR SUSPENSION	LINK TYPE, WITH ADJUSTABLE REBOUND AND SPRING PRELOAD
FRONT BRAKES	TOKICO TWIN-PISTON CALIPERS, DUAL FLOATING 310MM DISCS, ABS
REAR BRAKES	NISSIN SINGLE-PISTON CALIPER, 260MM DISC WITH ABS
FUEL CAPACITY	20 LITRES
COLOURS	CHAMPION YELLOW NO. 2
WARRANTY	2 YEAR UNLIMITED KILOMETRE
SEAT HEIGHT	835 MM
LENGTH	2275 MM
WIDTH	910 MM
HEIGHT	1405 MM
WET WEIGHT	216 KG
WHEELBASE	1560 MM
MODEL CODE	DL650XAUEL8
