DR-Z125L

CHAMPION YELLOW NO. 2

DR-Z125L

Blending race inspired looks along with an exciting entry-level off road package creates the Suzuki DR-Z125L. Built around a time proven chassis and engine package. Inheriting sleek designs from its RM-Z brothers, the DR-Z125L yields motocross styling that looks good at the local track or a favorite trail.

\$4,590 RIDE AWAY

KEY FEATURES

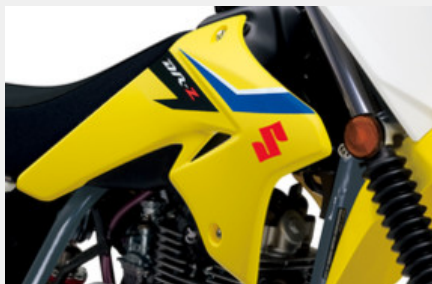

Built to deliver tractable, accessible power output to make riding as easy as possible for entry-level riders.

Telescopic, 180mm front and link-type, 170mm rear suspension provide long wheel travel and smooth, progressive action, that enhances enjoyable, comfortable ride.

Allowing to make various setting under a wide range of riding conditions.

The DR-Z125L features larger 19-inch front/16-inch rear tires, 805mm seat height and front disc/rear drum brakes.

KEY FEATURES

- > Powerplant is tuned for strong low-to-mid rpm power by carefully selecting the lengths of the intake system and exhaust pipe, and by using a MIKUNI VM20 carburettor that contributes to better throttle response.
- > Precise digital CDI ignition system with ignition timing map tuned to enhance the engine power characteristics.
- > Primary kick-starter system for easy restarting.
- > 5-speed transmission with gear ratios optimised for smooth off-road riding; link type gear shifting system built for highly reliable operation along with superb feel.
- > Frame and swingarm, designed specially for the DR-Z125L, feature ample rigidity and lightweight, creating compact, optimum-size off-road riding package.
- > Rugged, serrated footpegs are durable and provide dependable grip even in wet conditions.
- > Lightweight, durable diamond frame with high-tensile main backbone tube and body frame.
- > Lightweight carbon steel swingarm for excellent traction.
- > The seat and bodywork compose a smooth, almost seamless surface for riders to move around.
- > Low 805mm seat height, helps facilitate off-road riding.
- > Compact 1270mm wheelbase for agile handling.
- > The DR-Z125's front disc and rear drum brakes deliver strong, reliable stopping performance, with the front disc brake caliper shared with the RM85 motocrosser
- > Simplified electrical system, specially designed for off-road model, is composed of only the ignition system, harness and engine stop switch – all built for maximum reliability.
- > Large engine skid plate is made of lightweight plastic and covers the entire bottom surface of the engine.
- > Lightweight aluminium rims for unsprung weight reduction.
