BURGMAN 650

BURGMAN. The name is synonymous with two-wheel luxury.

For an entire generation of riders, BURGMAN has redefined the motorcycling experience. In ways once unimaginable, it has brought performance and comfort into alignment. It has presented motorcyclists everywhere with new ways to think about the twin pursuits of pleasure and freedom.

Now make way for the 2018 BURGMAN 650. Control has never come so freely. Power has never flowed with such ease. Every movement feels smooth and graceful. Every street is yours for the taking. On the open highway, the BURGMAN 650 cruises in a class of its own. Such is the abundance of power at hand that your every destination feels near. It's exhilarating. And from the exhilaration is born inspiration. The ease with which you accelerate, downshift, and manoeuvre around traffic and through every backroad detour is a tour de force. With surefootedness that inspires confidence and plush ride comfort that leaves you feeling sharp and relaxed long after you hit the road, the BURGMAN 650 empowers you to go much further.

\$14,790 RIDE AWAY*

*The Eco Drive Indicator does not automatically improve fuel economy but may help riders refine their riding efficiency and improve fuel consumption. Fuel consumption may vary depending on traffic conditions, such as the frequency of starts from stop, distance driven, rate of acceleration (throttle use), chosen speed, and maintenance.

**The ABS is a supplemental device for brake operation, not a device for shortening stopping distance. Always remember to reduce speed sufficiently before approaching curves and corners.

KEY FEATURES

The BURGMAN 650 delivers performance with as much control as you desire. A liquid-cooled 638cm³ engine offers all the power you need. Computerised fuel injection, a Pulsed-secondary AIR-injection (PAIR) system, and an O₂ feedback system with catalyzer boost fuel efficiency and minimise emissions.

The SECVT's updated design includes new clutch plates that cause 35% less drag.

A tubular frame and aluminium-alloy swingarm position the engine and transmission for balance and agility. The frame inherits the long, 1,595mm wheelbase of earlier Burgmans for a sporty, controllable ride and has a newly designed, slimmer tail section for sleeker, sportier bodywork. Plenty of wheel travel (110mm at the front and 100mm at the rear) helps to keep the ride smooth.

The exhaust system is sleek thanks to a new-look triangle-section muffler, And it's engineered to keep emissions so low that the BURGMAN 650 satisfies the most stringent regulations.

KEY FEATURES

- > By just toggling buttons on the handlebars, you can choose three distinct transmission modes: two fully automatic modes (Drive and Power) and Manual. Drive mode heightens efficiency at normal road speeds and gives smooth, linear, almost shock-free power delivery for easy riding. Power mode gives more punch when you twist the throttle. And Manual mode lets you thumb-toggle between five preset gear ratios for a unique feeling of control.
- > All new Eco Drive Indicator to encourage riding that may reduce environmental impacts. The Eco Drive Indicator light, located on the instrument panel, will come on when the vehicle is operated in a fuel-efficient manner - and may help riders learn techniques to improve their fuel economy*
- > All-round disc brakes deliver reassuring stopping power. The front brakes have an updated design with floating discs for more consistent braking performance. An antilock braking system (ABS)** helps to maximize the rider's control by preventing the wheels from locking during hard brake application. The ABS unit weights 55% less than that of the previous model.
- > The windscreen is shaped to give great wind protection and a clear view of the road. It's electrically adjustable to suit the rider's height. For convenience in tight parking spaces, the rear view mirrors can be retracted electrically at the touch of a button.
- > The seat is optimally sized and thickly padded for two-up luxury even on long journeys. The rider's backrest can be adjusted forward and backward by 50mm for optimal support. No tools are necessary.
- > A lever-operated brake lock lever gives the rider extra peace of mind. The lever has a stylish new design that makes it easier to reach and operate.
- > The rear backrest firmly supports the passenger providing additional comfort and a sense of security.

SPECIFICATIONS

ENGINE	TWIN-CYLINDER, 4-STROKE, DOHC, LIQUID-COOLED
STARTER	ELECTRIC
TRANSMISSION	SECVT, SELECTABLE AUTOMATIC OR 5-SPEED MANUAL
FRONT SUSPENSION	41MM TELESCOPIC FORKS
REAR SUSPENSION	SWINGARM TYPE, WITH ADJUSTABLE SPRING PRELOAD
FRONT BRAKES	NISSIN TWIN-PISTON CALIPERS, DUAL FLOATING 260MM DISCS, ABS
REAR BRAKES	SINGLE-PISTON CALIPER, 250MM DISC WITH ABS
FUEL CAPACITY	15 LITRES
COLOURS	PEARL GLACIER WHITE
WARRANTY	2 YEAR UNLIMITED KILOMETRE
SEAT HEIGHT	756 MM
LENGTH	2265 MM
WIDTH	810 MM
HEIGHT	1420 MM
WET WEIGHT	275 KG
WHEELBASE	1585 MM
